Printing Quote for Indiana High School Newspapers

Specifications

1. All publications will be printed on 27.5-inch, 30-pound standard broadsheet newsprint.
2. Because we are standardizing press runs, all newspapers would agree to process color for photographs and advertisements on the front and back pages only.
3. Product set up would be in four-page increments (8, 12, 16, 20 and 24 pages)
4. Page files would be delivered in PDF format to guarantee font quality.
5. Page files would be sent by e-mail or to our FTP site.
6. The goal of the Printing Center is a 2-day turnaround. If the materials are brought to us on a Tuesday our goal will be to have the completed papers available on Thursday. Although our press schedule varies from week to week in most cases we will be able to accomplish this.
7. The newspapers agree to pick up their papers at the Printing Center. We will not deliver the papers. However, we can ship them UPS or Federal Express, at the high school's expense.
8. A scheduled press time has been established for the printing of your school's newspaper. It is necessary that the school accept responsibility for this time allotted and have material ready in order to meet this time. If the scheduled time is not met the school agrees to give the Printing Center up to four weekdays to produce your school's newspaper from receipt of copy.
9. Payment will be net 30 days of product pickup; and contracts must be signed for one school calendar year.

Pricing

	8 pg	10 pg	12 pg	14 pg	16 pg	18 pg	20
pg							
<i>1,000 copies</i>	\$430	\$500	\$560	\$585	\$640	\$705
