

Feb. 15, 2011

Dear Adviser,

Since 1993, nearly 100 journalism teachers from around the state have taken part in a four-week internship program that pairs advisers with their local daily newspapers. I would like to invite you to consider this highly successful and rewarding program.

Interning at 18 different Indiana newspapers since the program started, our teacher interns have worked the copy desk, written news and feature stories under deadline pressure, taken photos and worked in the darkroom, participated in page design and participated in daily planning meetings.

If you feel working with a professional newspaper would enhance your own teaching and advising, please consider applying for a paid internship this summer.

If you apply, let me encourage you to include clips, portfolios, letters of recommendation (one letter from a media person, if possible) or any other materials to augment your application. Please include one copy of your high school newspaper or yearbook, too. Internships can begin early in June or be delayed until August. The schedule is flexible and will be worked out between the intern and the newspaper. The IHSPA will partner with the Hoosier State Press Association to offer interns \$350 a week stipend for total of \$1,400.

The deadline for all application materials is *March 31, 2011*. Also be aware that most newspapers require that interns live or work in that paper's readership area. It's also possible to use the internship for graduate credit at some colleges and universities.

Please direct all questions about the internship or the application process to Dennis Cripe, executive director of the Indiana High School Press Association. You can reach me at 1-800-852-0232/Extension 8198. My direct number is (317) 738-8198. My electronic mail address is: "dcripe@franklincollege.edu"

You may also want to read more from last year's interns at IHSPA's web site. Scroll to the bottom of:
